NO ABATEMENT OF DISEASE

HIGH TEMPERATURE AGGRAVATES IT

The Fever Situation at New Orleans Shows Little Change—Speedy Control of the Epidemic Expected

New Orleans, Aug. 1.—To day witnessed an increase in the number of deaths from yelow fever, a fact that was not unexpected in view of the high temperature that has prevailed the past two days. There was, however, the usual large preponderance of talian names in the list, both of new cases and deaths, which has characterized reports since the fever was first anounced as in existence here. In spite of increased mortality, health authorities exhibited no concern over the situation, contending that with the accumulation of cases there must be expected an increase in fatalities to maintain the average death rate of fever. Business interests continue to exert every effort to secure modification of quarantine regulations which have had the effect of bottling up the city commercially. With that object in view, President Souchin of the state board of health to day issued a proclamation on behalf of the state board to all parishes and municipal health officers. He announces that he has accepted and recommends acceptance by subordinate officers of the marine hospital health certificates to through passengers from northern points, transfering in screened coaches at New Orleans.

Rev. Beverly Warner, in charge of the citizens' movement, expressed himself as exceedingly hopeful of the situation. Some sensational statements have gone out through private letters and in special dispatches, giving the impression that the full extent of the situation here is not being made public. That is stated to be in no sense a fact. Every doctor is under pledge to report every case immediately and there is no desire to misrepresent the daily statement of cases or deaths.

Thousands of circulars are to be sent through the south by business men of New Orleans containing the emphatic declaration by Dr. J. H. White, of the United States marine hospital service, that freight cannot carry yellow fever infection.

Dr. Lebaron, in charge of the detention camp at Lumbeton, Miss., wired to day that five Italians were shot or killed by guards there is absolutely false.

FEVER REPORT.

The following is the yellow fever record up to 6 p. m: New cases, 42; total to date, 346; deaths to day, 5; total to date 68.

The relations between Louisiana and Mississippi have reached an acute stage, and from indications to night it will change from interviews about the concealment of cases to a much more serious matter. Mississippi has five armed boats patrolling the coast to prevent fishermen from breaking through the quarantine lines. These vessels are also assisted by the United States reveune cutter Winona. The Mississippi boats will not allow Louisiana fishermen even to enter Mississippi sound, east of St. Joe Light, but from reports received here it appears that one of these patrol boats came into Lake Borgne, which is distinctly Louisiana territory, and one report says it came up to the mouth of lake Borgne canal, which extends from the lake to the Mississippi river. The naval brigade is to be supplied with a light draught boat armed with a howitzer or two and manned by officers from the brigade and to be sent out to prevent further aggressions. The state board of health received official notice of the appearance of fever in three other parishes to day.

EAGAN AT MEMPHIS.

Memphis, Tenn., Aug. 1.—Dr. Eagan, secretary of the Illinois state board of health, who was in Memphis to day, in conference with Secretary Albright of the state board of health, and Health Commissioner Jones, relative to the yellow fever situation and action to be taken in Illinois to prevent the spread of the disease to that state, said before departing for Cairo to night:

"It and that I have been misquoted in a number of newspapers relative to the attitude of Illinois in relation to the present prevalence of yellow fever. I have never said, nor was it the intention of the Illinois board of health that Illinois should be closed to yellow fever refugees of the south. There are many sections of the state in which persons from the south are prefectly welcome. In my interview at Cairo, I merely said that neither Cairo nor any other city in the southern part of the state should be the place the concentration of large numbers of persons from southern states.

"Train inspection service at Cairo will be begun at once, but there is no intention at this time to institute quarantine or to impose unnecessary hardships upon the traveling public who travel with a fair consideration for the health and safety of the state at large. To be sure, those persons who seem afraid of danger to people of the state will be denied admission to Illinois, but that Illinois will deny admission to all persons from the south is an idea which I had not intended and do not intend to gain general circulation."

STRICT QUARANTINE.

Little Rock, Ark., Aug. 1.—Governor Davis to night issued orders directing General Haynes, commander of the state guard, to detail as many men as may be necessary to establish a strict state quarantine against all points where yellow fever may exist. Boston, Aug. 1.—Charles William Pattri, who gave himself up to the police yesterday and asked to be punished as a bigamst, declares that he has been wedded to three women in eight weeks. Two he was illegally married to, while the third was a mock ceremony. Pattri who is a Dutchman 60 years old, claims that he was first married on March 3, 1905, to Bertha Bing of 2545 Eighth avenue, New York city, that he had married her only for her money and had deserted her as soon as he got what little she had. Then he married Mrs. Clara N. Westlake of Cedar Lodge, North Scituate, R. I., on April 18, 1905, whom he claims to love disinterestedly. Remorse, he says, for having ruined the life of this noble woman had driven him to give himself up, as he could not rest until he had been punished. He will be arraigned on the charge of bigamy.

The young man who was the cause of the mishap is Alfred S. Terrell, superintendent of the bath at Swampscott. This is the second summer of Miss Hay there and the second year of her acquaintance with Terrell. Their friendship went far enough for them to take moonlight strolls on the sandy beach and other walks. It was on one of these walks that Terrell suddenly caught the young woman and gave her a hug. ACQUITTED OF MURDER

THIRD TRIAL OF DR G. R. KOCH.

Accused of Killing a Brother Dentist—Evidence Purely Circumstantial—Particulars of the Case.

Mankato, Minn., Aug. 1.—The jury in the third trial of Dr. George R. Koch, charged with the murder of Dr. L. A. Gebhardt, his brother dentist at New Ulm, Minn., Nov. 1, 1904, this afternoon returned a verdict of not guilty.

The case has been a sensational one and has held the close attention of the people of the northwest. Gebhardt was found lying in a pol of blood on the floor of his office at night, his head crushed by blows of a hammer. The most important witness in the trials was Asa P. Brooks, editor of the New Ulm Review, who heard scuffling in DrGebhardt's office, which is directly over the Review office, and ran up the side stairs to ascertain the cause. Not being able to make an entrance, he peered through the transom and saw the murderer standing over Gebhardt's body Brooks testified that although the murderer turned and looked at him he could not recognize the man, but swore it was not Koch. The rest of the evidence was circumstantial. Koch did not seem to be unusually perturbed on account of the murder. He continued his practice at New Ulm, was present at the inquest and sang at the funeral. Circumstantial evidence, however, was strengthened by the knowledge of jealousy alleged to have resulted from business rivalry and love affairs, caused suspision to be directed toward him and he was finally indicted. The first two trials resulted in disagreement.

NOT PUBLIC

Inquiry Into the Bennington Disaster to be Behind Closed Doors

None but witnesses are admitted to the meetings and no disclosures of the proceedings will be made until the final report is formulated and then probably only after transmission to Washington. It is understood a portion of this report will deal with the alleged shortage of officers on the Bennington, to which reference was made by Commander Young in a letter to Admiral Goodrick three days before the explosion, in which he said he had on the gunboat only four duty officers, young and inexperienced, "which a likly to destroy the fine record made for this vessel and to keep up the standard must have two more experienced officers."

The Benlington is again at anchor in the stream and most of the men who are fit for duty have been transferred to the Chicago, from which, after return to San Francisco they will be assigned to other vessels in the Pacific squadron.

SUE LEITER FOR $115,000.

DuQuoin—Capt. E. Dillon of Benton, public administrator of Franklin county, in which Zeigler is situated, has taken out twenty-three letters of administration on a similar number of estates of the victims of the Zeigler mine disaster. It is stated that suits will be brought by the Russian, Italian and Austrian consuls at Chicago at the coming term of the circuit court for damages against Zeigler coal company in behalf of the relatives of the victims of the explosion. The suits, it is said, aggregate $115,000.

FORGER IS ARRESTED.

Litchfield—H. H. McCaslin, who is wanted in Springfield, Pana and Litchfield was captured by Chief Purdy of the East St. Louis police department and Deputy Sheriff M. E. Bayer and Chief of Police W. C. Goodwin went to St. Louis and brought the prisoner to Litchfield. McCaslin is wanted on the charge of obtaining money under false pretenses. He is accused of passing a worthless check for $5 on Newton Merrick of the Inside Inn and on F. D. Beeson, local manager of the Pacific Express company. McCaslin represented himself to be a son of C. O. McCaslin, a St. Louis millionaire.

QUARREL OVER BOUNDARY.

Peoria—Struck in the face during a quarrel over the township boundary lines by Alfred Hoshor, Democratic supervisor, Henry Ahrens, Republican alderman at Sprinbay, Woodford county, fell heavily to the ground and breaking his skull, he died instantly. Mr. Ahrens had been alderman for fifty years.

MYSTERY IN DEATH.

Medora—Mystery surrounds the death of John Britt, 23 years old, of Beardstown, a flagman on a work train on the Chicago, Burlington & Quincy, who was found dead on the track three miles south of Rockbridge this morning. His body was badly mutilated by northbound passenger train No. 47. Britts was sent by Conductor C. H. Newberry to flag a train. When his body was picked up by the crew of passenger train No. 47 which ran over it, there were indications of the flagman having been dead several hours. Britts was known to have a sum of money on his person, and also a valuable watch. Both the money and the watch were missing, which leads to the theory of murder. Britts is survived by a bride of a few months.

SHE HAS CASH.

Kankakee—Securities sewed in an old skirt worn by Mrs. Henry Litchenberger, a supposed pauper, and $951 in money, gold, silver and paper, was accidently found by Mrs. A. C. McCarl, wife of the superintendent of the county poor house where the woman had been an inmate for several months. Mrs. McCarl made the discovery while cleaning the room occupied by Mrs. Litchenberger. Mrs. Litchenberger was a freak in a Chicago museum during the world's fair on account of her luxuriant hair, which is still long and black although she is seventy years old.

FORECAST FOR AUGUST

Editor of Hillsboro News Makes His Usual Observations on the Weather and Things in General.

"The summer days go swiftly by, the busy bee and festive fly improve the shining hours each day and spend but little time in play. The bee puts honey in its hive, the ants and other insects thrive, the locust sounds its strident gong, the crickets sing their merry song. As night the gentle summer breeze in whispered converse with the trees awakes the katydids and they dispute until the break of day. The whip-poor-will down in the glen repeats the querulous refrain, and on the moonlit air is heard the sweet song of the mocking bird.

The corn lifts up its regal head above the pumpkins lowly bed and all the rustling tassels sing unto the world that corn is king. The lusty blades defy their foes and clash across the narrow rows, but through the fence the cow and calf peer eagerly and gally laugh, for well they know that autumn's cold will turn the green ears into gold, and ere there comes another spring they'll eat this proud and bonsttul "king!" The thought of such a royal diet will make the pumpkin vines run riot.

In August when the skies are fair and heat and dust are in the air, it's nice to seek some shady nook with pipe, tobacco and a book and read and smoke and loaf and doze and let the flies crawl up your nose, or rest down in some shady dell where the mosquitos bite like blazes! It's nice to take your hook and line and then pretend the fishing's fine, and down beside some forest stream lie lazily and rest and dream. This lying by some stream you'll find is a safe and harmless kind, beside the lying you will hatch about the fish you didn't catch!

In August succotash is ripe and apples give the boys the gripe, young chickens simmer in the pot, they brown best when the grease is hot. I fain would leave the city's din, and visit with my country kin, where scores of chickens can be found that don't cost fourteen cents a pound! I fain would leave the town and go where corn and beans and chickens grow, where watermelons on the vine in emeraldic beauty shine, where harvest apples one can see like globes of gold upon the tree, and where the cows, if they are wise, stand in the pond to fight the flies!

I do not care to shoot the chutes or rubber at the bathing suits, or rather where the suits should be to hide one's bare anatomy. I do not care to go abroad, to me the old world is a fraud. I want to go where there's more room, out where the yellow pumpkins bloom, where corn fields wide reflect their sheen and billow like a sea of green; out where the quails protect their hatch and hide them in the brier patch, and where the rabbits scurry hence, and chipmunks run along the fence, and in the straw stacks snug and tight the crickets chirrup all the night.

I care not for the swell resorts, the sea, with its aquatic sports, the northern lakes where anglers throng for wall-eyed perch and muskallonge. I care not for the mountain haunts, they fail to satisfy my wants. As for the springs, they tempt me not; their healing waters, cold or hot, will never have the wholesome charm found in the spring out on the farm. Then let me on its mossy brink stretch out full length and drink, just as I used to when a boy, with naught to vex me or annoy. Alas! I can't my duties shirk, dog on the luck, I have to work!

In August nineteen hundred five, John Rockefeller still will thrive. Just watch the bald old vulture foil his foes and corner linseed oil! Observe him as he upward sends the price and takes his dividends! The packers, too, will operate just as they have for years of late. They'll send the price of hogs up higher or lower still, as they desire. The grafters will not cease to graft, or thrive by artifice and craft, and politicians still will steal and when they're caught they'll appeal, while in Missouri, so they say, the lid is down but will not stay.

August will be dry and hot, I'm pretty sure, but if it's not, it may be wet and cool you see, or both, just as the case may be. The moon will be full the fourteenth day, but reader, don't you get that way. A slight eclipse on the same date can first be seen that night at eight. On August thirtieth, I hear, the sun will wholly disappear just as it rises in the morn and peeps above the waving corn. The month will close the same old way unless things bust up before that day. I'd tell lots more if I had time, then, too, I've run clear out of rhyme.

A FACT PROVEN.

Should Convince Even the Most Skeptical of Its Truth.

If there is the slightest doubt in the minds of any that Dandruff germs do not exist, their belief is compelled by the fact that a rabbit inoculated with the germs became bald in six weeks' time. It must be apparent to any person therefore that the only prevention of baldness is the destruction of the germ—which act is successfully accomplished in one hundred per cent. of cases by the application of Newbro's Herpicide. Dandruff is caused by the same germ which causes baldness and can be prevented with the same remedy—Newbro's Herpicide.

Accept no substitute. "Destroy the cause you remove the effect."

FOUND UNCONSCIOUS

Glen Peak Kicked Into Insensibility by Trusted Family Horse—Was Visiting at Home of His Sister on Prairie Street—May Lose Sight of One Eye.

Kicked into insensibility by an old and trusted family horse, Glen Peak was found by his mother, Mrs. Albert Peak, lying in the stall beside the animal's feet Tuesday evening. The boy had gone to feed the horse about five minutes before, and for some unaccountable reason the animal, which had always been perfectly gentle and showed no bad traits, kicked him again and again, inflicting serious injuries, and probably destroying the sight of one eye. The accident occurred at the home of George Wheeler on North Prairie street, where the child and his mother are visiting.

Glen Peak is the 13-year-old son of Albert Peak, who lives about two and one-half miles southwest of Winchester in Scott county. He came to this city several days ago to visit his sister, Mrs. George Wheeler, and his mother drove in Tuesday for a visit here also. The beast driven was a gentle nag, which had been driven in the family for years, and which was always considered perfectly safe. Toward evening the boy went to the barn to feed the animal, preparatory to hitching up for a drive about the city, and upon his failing to return his mother went to the barn and found him lying unconscious as stated.

Drs. McLaughlin and Gailey were called and an examination showed the boy had been kicked in a number of places. The most serious was a blow which he had received about his left eye. The imprint of the horse's hoof appeared in a terrible laceration of the flesh and an injury to the eye, which it is feared amounts to a rupture of the ball, thereby destroying the sight of that member. There are also terrible bruises on his chest and arms and other parts of his body. He recovered consciousness upon the application of the proper restoratives, and is resting as easily as could be expected. It cannot be determined until this morning whether the sight of his eye can be saved or not.

The relatives of the boy are at a loss to account for the accident, and the victim himself is unable to give a satisfactory explanation of what occurred. It was little less than a miracle that he was not trampled to death under the horse's feet while he lay unconscious in the close quarters of the stall.

Mr. Peak was notified of the accident and arrived from his home last night.

J. H. Smith, residing on the Bert Sanford farm near Joy Prairie, met with an accident Monday that resulted in several minor injuries. He was on horseback and in attempting to lift his son onto the horse with him the animal shied and fell into a barbed wire fence. In the mixup that followed Mr. Smith succeeded in rescuing the boy, but had several of his teeth loosened, his face cut and his body bruised in two or three places. Mr. Smith considers his escape from serious injury fortunate.

THE JOURNAL COMPANY.

The spasm of reform is on in Chicago, and the end is not yet.

The New Jersey mosquito has hardly received honorable mention this season. The infectous little pest of the south has monopolized all the time and attention we have had for the buzzing critters this year.

If Edison has solved the electric power question and will give it to us serviceable and cheap the auto fad may yet include the poor as well as the rich.

Circulars sent out by New Orleans business men say that the yellow peril cannot travel by freight. Nevertheless f. o. b. orders will continue to reach the southern metropolis at a declining ratio for months to come.

Recent moves by Kaiser Wilhelm on the international checker board have made the game assume new interest. His mare clausum suggestion regarding the Baltic has even caused a ripple that has disturbed the peaceful waters of Portsmouth harbor.

President Morton announces that Senator Depew continues one of the guiding forces of the Equitable. The general opinion has prevailed that the company had been managed without a rudder.

Dr. MacArthur accuses Governor LaFollette of "Yellow Oratory" and denounces in strong terms his inflammatory remarks regarding Mr. Rockefeller. We must admit it was rather severe for the oil king to be so unmercifully flayed at a Baptist chautauqua. If yellow oratory is the right name it has marvelous powers, as LaFollette enjoys the distinction of being the only man in public life that views with hesitancy the senatorial toga and clings tenaciously to the robes of gubernatorial proportions.

BACK TO THE OLD FIG LEAF.

The shirtwaist man and the netwaist girl go hand in hand, to day, and the people year after year go throwing their clothes away. The coat and vest are laid to rest and where is the fleecy shawl? And clothes get fewer and thinner—what will be the end of it all? What will the shirtwaist man take next from the things he has to wear? And what will the netwaist girl throw off her shoulders now half bare? The shirtwaist man and the netwaist girl go rollicking down the way. Have we started a trend that's going to end in the old fig leaf some day?—Exchange.

NOT LEGALLY DEAD.

There was a great sensation published the other day in regard to the case of John Gales, who has been an inmate of the penitentiary for twenty-three years. He was condemned to be hanged for a murder in Chicago, but was sent to Joliet. The authorities in Joliet lost sight of his papers and it was said the sheriff forgot to hang him at the proper time and he had lived along ever since. Finally, his wife appealed to the authorities to have him discharged on the ground that like Philip Nolan, the man without a country, he was legally dead, and therefore ought not to be kept in durance. The records of the executive office, however, show that Gales had his sentence commuted by Governor Cullom to imprisonment for life.

NOT CANDIDATE FOR SENATE.

A. Hauby Jones, pure food commissioner of Illinois, in an interview, gave out the information that Governor Deneen will not be a candidate for United States senator to succeed Senator Shelby M. Cullom.

"No," said Mr. Jones, in answer to a question from the reporter, "I do not think that Governor Deneen will be a candidate for senator. In fact, he has stated to me that he will not under any circumstances be a candidate. Governor Deneen, providing he gives the state a successful administration, will be a candidate for renomination. If Yates is not a candidate, Cullom and Hamlin will be the strong men. I do not know who be in the field. Governor Deneen has broken Lorimer's hold upon the Cook county machine and is now himself at its head.

"I am satisfied," the commissioner continued, "that Sherman will be for Hamlin, for he has so stated. Some of Yates' friends state that Yates will be for Cullom against Hamlin, and others say he will be against him."

A NUMBER OF SARCASTIC TRUTHS.

"Yes," remarked the country merchant to a newspaper reporter, "I certainly have a snap. The wholesale houses send me duns every month and draw on me at sight; but if I send a bill to a farmer he comes in swearing mad and quits trading at my store. While I am hard up for money, many of those who owe me are sending cash in advance to mail order houses. If I contribute money to any cause people say I am bidding for trade; if I don't they say I am a hog. Every day I am expected to dig up for everything that comes along, from a raffle ticket to a church fund, by people who say I ought to do this because they do part of their trading here; but my friend Montgomery Ward neither buys raffle tickets nor helps the church fund, and yet gets cash in advance business; and if I were to circulate a subscription paper among the wholesale city houses where we trade I would get the laugh proper. If I sell a pair of pants I must treat the family to candy and cigars; if I buy a load of potatoes I must do the same. Customers who are able to pay hang onto their money while I pay 10 per cent at the bank to get ready cash. I have a big business during hard times and poor crops from people who are willing to trade with me providing I can duplicate catalogue prices and wait until after harvest for my money. My scales weigh too heavy when I sell sugar and too light when I buy butter. I am a thief, a liar and a grafter. If I smile I am a softsoapy hypocrite; if I don't I am a grump. Yes, this is certainly a snap." And then he looks over $10,000 worth of book accounts, all good, and wonders how he could raise $350 to pay a sight draft due to morrow.—Exchange.

SCHEME TO DEFRAUD

Arrest of a Publisher for Alleged Misuse of the Mails.

St. Paul, Minn., Aug. 1.—John C. Hanley, publisher of the Alliance Advocate and well known throughout the west as a leader of the Farmers' alliance and other political movements, was arrested by a United States marshal on a charge of using the mails in connection with a scheme to defraud. The charge is that in advertising matter sent through the mails for the purpose of selling stock in the Consolidated Farm and Ranch company, Hanley represented the company had acquired the property of the Montana Cooperative Ranch company, now in the hands of a receiver, which representation is claimed to be false. The consolidated company was organized a few months ago under the laws of South Dakota, with Hanley as president, and capitalized at $30,000. The government claims the new company has practically no assets and that in order to induce investors to buy stock the promoters pretended to have acquired the property of the old company. The Montana company is now in the hands of a receiver and is claimed to have assets of only $46,00, with an incumbrance in the shape of a $17,000 mortgage. In some of the literature sent out by Hanley it is represented that the receiver has property worth $107,000. The circulars give this list of officers of the consolidated company: J. C. Hanley, Hanley, N. D., president and general manager; Rev. W. A. Philips, Chicago, vice president; A. J. Whedden, Omaha, secretary; A. H. Irish, St. Paul, treasurer; W. E. Russell of Massilon, Ohio, C. H. Ashley of Des Moines, Iowa and A. H. Pepper of Minneapolis, directors.

Exposure Injures Foals.

Young foals that are stabled with their dams during cold rainstorms will thrive much better than those which are not so protected, says American Cultivator. The idea that exposure to inclement weather makes a foal hardy is fallacious. Those that are naturally the most hardy will be least affected by hardships. The weaker ones will die if the hardships which they are forced to endure are too great.

A GORGEOUS PARADE

Nothing Like the Great Forepaugh-Sells Circus Pageant Ever Seen Before.

The Great Adam Forepaugh and Sells Bros.' shows present this season the most attractive and colossal free street parade ever attempted in the history of circuses. These enormous shows exhibit in Jacksonville, Tuesday, Aug. 22.

Since last season the parade has been enlarged and improved upon by master hands in the art of producing circus attractions. There is something in this pageant to interest and hold the attention of every spectator. The student of natural history has the wonders of the wild animal world brought before him in living, breathing reality. The lover of fine stock has here 500 magnificent thoroughbred horses upon which to feast his eyes; the admirer of physical perfection is regaled with the sight of hundreds of the world's greatest acrobats, equilibrists, gymnasts and riders; the artistic interest is gratified in the opulent splendor of massive, beautifully carved floats representing the known countries of the globe. Men and women in the picturesque garb of the various nations form regal allegorical tableau.

The M. E. church of this place will give an all day burgoo and picnic at Richardson's grove Wednesday, Aug. 16th. Athletic sports and music by the band. Everybody come and have a good time. Remember the date—Aug. 16th.

LINEN SHOWER.

Mrs. Frank Vickery was the hostess at a charming social function given Tuesday afternoon in honor of Miss Bertha Anderson. It was a linen shower and many articles of artistic design were an evidence of the esteem expressed for this popular August bride. A guessing contest added to the enjoyment of the company, which was delightful in every respect.

ANOTHER WARLIKE TELEGRAM.

London, Aug. 1.—A dispatch to the Times from St. Petersburg says another imperial telegram, even more warlike than the emperor's reply to the Orenburg clergy, appears in to day's Official Messenger. The emperor, replying to an address from Khabarovsk, heartily approves the recommendation to continue the war until the enemy is crushed, and above all not to think of cession of territory or payment of indemnity.

RAILROAD NEWS NOTES

Wabash Inaugurates Strict Rule Regarding Passes—Rock Island and Alton Pact—Items of Interest—Shop Notes.

There has been a very considerable restriction in the use of employes' passes on the Wabash by the new management. This has been done by limiting the number of officials authorized to countersign trip passes and by practically abolishing gang passes. The rule of the Wabash has been to grant passes liberally to employes and members of their families immediately dependent upon them. It is not understood that there is to be any change in this rule, but it is to be applied literally and employes being obliged to go through a good deal more circumlocution will apply less frequently for free transportation.

The superintendent of the car department was formerly authorized to countersign passes and the authority remained with Chief Clerk Badenhausen until this department was consolidated with the machinery department. Now an application for a pass must go to Superintendent Barnes at Springfield.

Time and trip passes for employes and their families may be countersigned by the division superintendent and the master mechanic, but if they are to be used over other divisions they must go up to the office of the general superintendent to be countersigned.

Trip passes good for employes only over the division may be countersigned by trainmasters, but if passes are wanted for families, the application must go up to higher authorities.

The gang pass was for business uses only. They were card passes which permitted a foreman to take with him as many men as were named on the pass, and the head of each department that was frequently obliged to send out a number of men was supplied with as many passes of this kind as were required. Transportation of this kind has in some instances been entirely abolished and in all practically so. Men who regularly travel are supplied with annual passes, and gangs especially sent out must get special transportation. When they are away from home they may be moved in emergencies on a telegraph pass.

—(o)—

Upon expiration of the contract existing between the Rock Island and Burlington on through train service between St. Louis and St. Paul, it is not unlikely that there will be no renewal of it. The Rock Island, it is claimed, will run its Twin City trains via the Alton to Peoria, thence over its own line to Cedar Rapids and St. Paul, thus obviating the necessity of traffic arrangements with the Burlington route between Burlington and St. Louis. In view of the fact that the Rock Island controls the Alton this rumor appears well grounded and especially since the new through fast freight to St. Paul is routed via the Alton to Peoria.

—(o)—

On account of the very heavy passenger traffic on the Wabash Tuesday, passenger train No. 9 was supplied with two extra cars. One car, a tourist sleeper, was picked up at Springfield to accommodate the passengers out of that city to Aline, Okla., for a land drawing, which will take place in a few days. The sleeper will be carried by the Wabash as far as Kansas City and will then be given to the Rock Island to be carried to its destination. The other car was for the extra heavy business to Kansas City, Portland, Ore., Denver, Colo., and other western points.

—(o)—

R. C. Fleming, Wabash passenger agent at Springfield, accompanied the tourists as far as Kansas City Tuesday.

—(o)—

Henry Stauffer, agent for the Burlington at Merritt, has been transferred to Walnut Grove.

—(o)—

J. P. Ramsey, general manager of the C., P. & St. L., arrived Tuesday evening in his private car No. 90, attached to train No. 37.

—(o)—

G. W. Dye, division freight and passenger agent of the Burlington, was in Springfield Tuesday.

—(o)—

W. M. Bushnell, of St. Louis, general freight agent for the C., P. & St. L., spent Tuesday in the city on company business.

CATARRH

A UNIVERSAL DISEASE

Catarrh usually begins with a cold in the head, but does not stop there. The mucous membranes all become inflamed and secrete a filthy, unhealthy matter which is absorbed by the blood and distributed to all parts of the body. The patient is then continually hawking and spitting, the nose is stopped up, the ears have a ringing or buzzing noise, the throat becomes sore, and as the unhealthy matter more thoroughly saturates the blood a general feeling of despondency takes possession of the system.

"I had Catarrh for about fifteen years, and no man could have been worse. I tried everything I could hear of, but no good resulted. I then began S. S. S., and could see a little improvement from the first bottle, and after taking it a short while was cured. This was six years ago, and I am as well today as any man. I think Catarrh is a blood disease, and know there is nothing on earth better for the blood than S. S. S. Nobody thinks more of S. S. S. than I do.
Lapeer, Mich. M. MATSON.

Local applications cannot cure Catarrh, because they do not reach the seat of the trouble. They allay the inflammation and temporarily relieve the disease, but as soon as they are left off the trouble returns. The only way to cure Catarrh is to treat it through the blood. S. S. S. soon clears the blood of all Catarrhal matter and purges it of all irritating poisons, checks further progress of the trouble and completely cures the disease. S. S. S. keeps the blood in perfect order so that it can eliminate from the system all waste matter that will produce Catarrh. Nothing equals this great vegetable remedy in the cure of this disease. Write for our book and any medical advice you wish We make no charge for either.

A NATURAL RESULT.

It is reasonable to suppose if the foundation of a structure gives way, the building is bound to come down. This principle can be applied to disease. Take medicine that will remove the cause of sickness, and a cure is sure to follow. Dyspepsia, indigestion, sick-headache and biliousness, their foundation is stomach disorders. Remove this weakness and the other symptoms are no more. There is one cure druggists sell for 25c per box. It is Dr. Gunn's Improved Liver Pills. One for a dose. They make the cure by taking away the cause. Write to Dr. Bousako Co., Philadelphia, Pa. Sold by Lee P. Allcott.

Truths that Strike Home

Your grocer is honest and—if he cares to do so—can tell you that he knows very little about the bulk coffee he sells you. How *can* he know where it originally came from, how it was blended—or with what—or when roasted? If you buy your coffee loose by the pound, how *can* you expect purity and uniform quality?

LION COFFEE, the LEADER OF ALL PACKAGE COFFEES, is of necessity uniform in quality, strength and flavor. For OVER A QUARTER OF A CENTURY, LION COFFEE has been the standard coffee in millions of homes.

LION COFFEE is carefully packed at our factories, and until opened in your home, has no chance of being adulterated, or of coming in contact with dust, dirt, germs, or unclean hands.

In each package of LION COFFEE you get one full pound of Pure Coffee. Insist upon getting the genuine. (Lion head on every package.)

(Save the Lion-heads for valuable premiums.)

Take Courage!

If you are naturally not as strong as your more fortunate sisters, and for this reason experience dread rather than joy at the prospect of becoming a mother, take courage and assurance from this fact: Mother's Friend is meant for you, and by its use you may pass through that glorious martyrdom which is yours by divine right with no more discomfort than that experienced by those who by nature are possibly more adapted for the role of motherhood.

MOTHER'S FRIEND

is a liniment of proven merit, and its great worth can be no better attested to than by the countless strong and healthy children who through its kindly offices have entered this world unhandicapped by any deformity or weakness. It is a liniment which by external application acts upon the abdominal muscles and permits of a painless parturition.

MATHENY & LLOYD.

(By Associated Press.)

Chicago, Aug. 1.—Wheat: The market opened a trifle easier on generally clear weather in the northwest. Sentiment, however, soon became bullish and prices made a uick rally. One of the main incentives to the upturn was the reiteration of damage reports from Russia. Another factor was prediction of rain to night throughout Minnesota and the Dakotas. During the last half of the session there was a complete reversal of sentiment, prices makng a sharp decline. The main cause of the break was the report of the weather bureau at Washington laiming the spring wheat crop generally was in excellent condition. Heavy liuidation during the last hour resulted in an extremely dull close, prices being almost at the lowest point of the day, September down ⅝c.

Corn—Sentiment was bullish throughout the greater part of the session. The market was influenced by small acceptances. Bull leaders gave the market active support. Cash demand was somewhat better than for previous days. During the last hour prices reacted somewhat in sympathy with breay in wheat, but the close was firm, September up ⅝c.

Oats—Advanced on covering by sellers of yesterday. The best selling was against country purchases. Crop reports were generally favorable. Prices were up ⅜c early and finished ¼@⅜c. better for the day.

FINANCIAL MARKET.

New York, Aug. 1.—The stock market again demonstrated its good absorptive poker to day during the period when profit taking sales were being made to meet new demands. Specialties were features of the market, as on the day before and there were few of the great speculative leaders in the uist that moved widely enough to call for special comment.

Copper securities were strong in all the markets of the world, based on advancing price and extraordinary demand reported for the product.

MEN PAST SIXTY IN DANGER.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostate glands. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostate gland and kidney trouble for years and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." Sold by J.A.Obermeyer, City drug store.

Foley's Kidney Cure is a medicine free from poisons and will cure any case of kidney disease that is not beyond the reach of medicine. Sold by J. A. Obermeyer, City drug store.

A Realistic Picture

[Original.]

Lucy and I had been back from our wedding trip but five days when we had a violent quarrel. Never in my life had I been so shocked, so horrified. We had known each other ten years with nothing more serious between us than a few lovers' spats, and now that we were united for life we had made the discovery that we were incompatible. I saw in store for us a series of outbursts lasting through a lifetime. I hastened to my friend Merriam—a singular friend for a man of twenty-five, since he was seventy—to pour my trouble in his ear.

"What is it, Billy?" he asked sympathetically.

"We have quarreled," I replied, almost in tears.

"Well," he said, with a smile, "did you expect to go through life billing and cooing?"

"No, but I have always been used after a quarrel with any friend to be the first to offer my hand and make it all up. I would have despised the man who would refuse to meet me halfway."

"'The man,' yes, but did you always meet with such response from woman?"

"I never had such quarrels with women. I was not sufficiently intimate with any of them."

"Ah, there's the difference. A man never becomes as intimate with another man as with a woman. Besides, a woman is not a man. Sit down, light your pipe, and I'll tell you what I have never confided to any one before.

"My marriage, like yours, was a love match. I had had a great many men friends and one man chum. The night after our return from our wedding trip I took up my hat to go out. 'Where are you going?' asked my wife. 'I'm going round to Tom Noyes' for a few minutes just to say "How d'you do?" after my absence.' 'And you expect me to spend the evening here alone on the first night after our return? If Tom is to take you so early, what will be the result after you have begun to get tired of me?' 'I didn't suppose marriage meant giving up my best friend.' But what need to give a dialogue that led up to a violent quarrel?

"It was very plain to me that if I had tried to find the most unreasonable woman in the world I could not have better succeeded. At first after our quarrels we made a great ado about making up, but pretty soon we sulked after the paroxysms, growing less and less sulky every hour till tranquillity was restored. At times I would apologize for what I had done and occasionally for what I had not done, but after awhile I discovered that the best way was to ignore the causes of our difficulties entirely. They were all shocks resulting from the efforts of two currents to blend.

"I did not spring from the grub bachelor into the butterfly married man. It took a long while to change me. As the years went by I let go more and more my bachelor instincts and developed those of a husband and father. A new world was growing into existence for me. For a time I did not realize how fully I had become a part of it, and at times cast longing eyes back to my bachelor independence. But the day came at last when I looked upon my bachelorhood as an undeveloped existence in which the heart had no part and my own sweet will was the current in which I drifted aimlessly.

"Then came children to live and children to lose. Each child was like a tender shoot springing from my heart. Those who passed from us are as dear today as those who lived. In the family, with all its cares, its responsibilities, its griefs, we found the only happiness that never died.

"And now that those of our children who have lived have left us to form their own worlds we are alone together, as we were when the current of our lives first met and mingled. Do you suppose we never quarrel? If you do, you are mistaken. But we know that our quarrels are a part of our imperfect natures, and we accept them as we accept our other ills. Thus we do not magnify the evil they do, which is in itself insignificant."

"Frank," called a sharp, querulous voice from another room, "are you going to talk all day?"

"What do you want, dear?"

"You know very well that I have been wanting to speak to you about something of importance for half an hour."

"I'll be with you in a moment. Don't get into a stew about nothing."

I pressed the old man's hand and withdrew. It seemed to me that in his brief story and the bit of sequel contained in the few words I had heard he had given me a picture of what my life would likely be. The romances I had read of the happy period of young love, the beautiful drifting together of two souls, a gradual decline without chafing, all seemed to me to be incompatible with our imperfect natures. Beautiful examples there doubtless are, but when a consciousness of my own imperfections loomed up before me I had no hope that mine would be one of them. Going home, I found my newly wedded wife and said to her:

"Lucy, I have just been talking with my old friend Mr. Merriam, and he has said things that I expect are true."

"What did he say?"

"He said that I must gradually get over my bachelor habits. I must begin to live a far different life."

"I should think so."

"And he says that you and I must expect occasionally to have a little tiff, you know"—

"Certainly we will if you continue to act unreasonably. Dinner has been getting cold for an hour."

I sighed. There were parts of the burden that I would have to bear alone. SUMNER CHILDS.

DELIGHTFUL SOCIAL EVENT.

Marsh. The appointments for the occasion were perfect and an evening of rare pleasure resulted. Amusement features of a varied character served to entertain the guests in the early hours of the evening, but the event of chief importance was the shower of useful gifts, which fell from a large heart suspended from the ceiling, and whose contents were manifested by the pulling of two ribbons placed in the hands of the bride- and groom-elect:

Elegant refreshments added enjoyment to an occasion that was marked by charming hospitality.

MAKING PROGRESS.

The permanent survey of the interurban road from Alton to Jacksonville was commenced Monday at Alton by F. E. Fisher, of the Fisher Construction company of Joliet, and a corps of engineers. SHERMAN-LAYMAN.

Miss Elsie Layman, daughter of Judge and Mrs. M. T. Layman, of this city, and Rev. Franklin Cole Sherman, of Aurora, Ill., were married at Petosky, Mich., Tuesday morning. The ceremony was performed at 8 o'clock by Bishop Tuttle. Rev. and Mrs. Sherman left immediately afterward for a wedding trip on the lakes.

Mrs. Sherman is one of the most popular young ladies of this city. She is possessed of a charm of presence and personal grace that endear her to numberless friends in this city and elsewhere, and is in addition a very accomplished young lady. She is a graduate of the Jacksonville high school, and also of the literary and musical departments of the Illinois Woman's college. Since her return to this country two years ago she has spent one year as instructor in the State Normal at Macomb.

Mr. Sherman is rector of the Episcopal church at Aurora, and is also well known here, through frequent visits. He stands high in his calling and is a popular minister of a prosperous charge.

ON THE GOLF LINKS

Progressive Mixed Foursome Golf Was Enjoyed Tuesday Afternoon—Picnic Luncheon at Conclusion of Play.

Tuesday afternoon was one that will long be remembered by many of the local golfers. The women players of the club invited gentlemen partners to participate in a progressive mixed foursome event. There were sixteen players and all had a jolly good time. A prize was given for the couple that made the best showing in the 9-hole event. This was won by Miss Louise Osborne and F. L. Ledferd. They were tied with Mrs. Danskin and Dr. Dinsmore, both couples being 3 up. In the play off the former won by 3 up and 2 to play.

After the contest a delightful picnic luncheon was served by the ladies. The tables were burdened with many good things, which all enjoyed.

The scores for the progressive event were as follows:

Miss Louise Osborne and F. L. Ledferd	3 up
Mrs. J. H. Danskin and Dr. George Dinsmore	3 up
Miss Grace Carter and J. H. Danskin	2 up
Miss Reon E. B. Osborne and Dr. Herbert Potts	1 down
Mrs. J. T. Sharpe and Green Luttrell	1 down
Miss Louise Huffaker and Marcy Osborne	1 down
Miss Charlotte Hayden and George Scurlock	2 down
Miss Newhall and Walter Bellatti	2 down

The best medal score was made by Miss Osborne and Mr. Ledferd, 49.

After luncheon all the players paired off and played mixed foursome until dusk. Nearly all the medal scores were good.

The gentlemen players were delighted with the hospitality shown them by the ladies and in the near future hope to reciprocate.

* * *

This afternoon the ladies' monthly handicap cup will be played for and many entries are expected. This is the third contest for the cup. It was won first by Miss Gladys Osborne and the next time by Mrs. J. H. Danskin.

* * *

The matches for the Kirby-Capps cup are progressing slowly. Mr. Scurlock won from Ed Scott by default and this afternoon will meet Mr. Ledferd in the semi-finals. This contest should bring forth a good match as they are playing about an even game, and if one is off his game the other should win by a reasonable margin.

BIRTHDAY ANNIVERSARIES.

Sunday was the thirtieth birthday anniversary of John W. Sample, residing near Pisgah, and the fifth anniversary of his son, John Melvin. Mrs. Sample planned a delightful surprise in honor of the double event and at the appointed hour about forty friends and neighbors arrived. A sumptuous dinner had been prepared to which the guests did ample justice. Many tokens of esteem were received which will ever be highly prized by the fortunate recipients.

The day was also the birthday anniversary of W. M. Davenport and the wedding anniversary of T. J. Lukeman, who were among the guests.
